Your child’s check-in summary

Test child · 3 years 0 months · Informant: Parent · Hearing: Not sure · School/nursery: Not attending

> **You did not report concerns in these questions. This does not rule out developmental difficulties. Continue routine developmental reviews and speak with your child’s doctor whenever you have a concern.**

This is a record of caregiver observations, not a diagnosis or validated screening result. No score has been calculated.

Changes in skills: Has your child stopped using a skill they previously used regularly, such as communicating, playing or moving? — No

Connection and play: Do you have concerns about how your child shares interests or enjoys play with other people? — No

Communication: Do you have concerns about how your child understands others or communicates their needs, using any of their languages, gestures or communication aids? — No

Movement and daily activities: Do you have concerns about your child’s movement or participation in everyday activities for their age? — No

Comfort and routines: Do reactions to sounds, textures or changes in routine make daily life difficult for your child? — No

Attention and activity: Do you have concerns about attention, activity or acting without thinking compared with other children of a similar age? — No

Sleep, feeding and comfort: Do you have concerns about your child’s sleep, feeding, pain or physical comfort? — No

Other concerns: Is there another concern about your child’s development that you would like to discuss with a professional? — No
